Department of Computer Science and Engineering

## About the Department

---

The Department had a humble beginning with an intake of 60 students in Under Graduate program in Computer Science and Engineering (B.E.) in the year 2010. Post Graduate program in Computer Science and Engineering (M.E.) was introduced in the year 2014 with an intake of 18 students. Today the **Department caters the needs of 720 students**. The Department has been accredited by NBA and has also been recognized as a Research Centre by Anna University, Chennai.

In our department, we have 40 highly qualified, dedicated faculty members for the upliftment of the student fraternity. The curriculum and syllabi are revised once in 6 months with the feedback of alumni and industry experts to make the students meet the industry expectation for their career and development. The syllabus is embedded with GATE curriculum that strives the students to clear **competitive exams like UPSC (IAS), GATE**. The Department has state of the art infrastructure in terms of laboratories, classroom, seminar hall, etc. The Department is stepping forward to expand its wings from the national to international area through innovative teaching practices and industry/academic collaborations. Special labs such as Mobile App Development, Data Science, Machine Learning, Augmented reality and Virtual Reality, Networks and Intelligence Computing are initiated to help the students excel in industrial environment.

The Department has signed **MoUs with Emurgo Amazon Web Services, REDHAT, EMURGO** for establishing **Center of Excellences** through which the students are benefited with International certification courses like **RHCSA, BLOCKCHAIN, ORACLE, Artificial Intelligence & Machine learning from Xebia University, C-DAC CLOUD**. To equip the students, the department offers with value added courses in Data Science and Big data analytics by Dell EMC2, Oracle, Block chain and Java. Apart from academics, the college provides platform to the students in order to showcase their unique talents through various **non- technical clubs like Dance, humor, music, food photography, Art & Craft Internet radio club** etc. Liberal arts courses like roof gardening, two-wheeler maintenance and other are also offered by various departments open to all the students.

## **Vision of the Department**

---

To foster the students by providing learner centric teaching environment, continuous learning, research and development to become thriving professionals and entrepreneurs to excel in the field of computer science and contribute to the society.

## **Mission of the Department**

---

1. Providing value-based education and contented learning experience to the students
2. Educating the students with the state of art technologies and cultivating their proficiency in analytical and designing skills
3. Enabling the students to achieve a successful career in Computer Science and Engineering or related fields to meet the changing needs of various stakeholders
4. Guiding the students in research by nurturing their interest in continuous learning towards serving the society and the country

## DEPARTMENT EVENTS & ACHIEVEMENTS

### **“Webinar on Internet of Things”**

The spread of COVID-19 has affected almost all spheres of human life – physical, emotional, and economic. In India, we are all navigating through the current lockdown. Like every other crisis, we will ride this tide, adapt, and come out stronger. The pandemic has significantly disrupted the higher education sector as well, which is a critical determinant of a country's economic future. Hence Computer Science Engineering Department had organised a free webinar on Internet of Things on 19.03.2022 from 3 pm to 4pm. The resource person for this event was Dr. Vikram Neerugatti, CTO & Managing Partner Smart Nuts & Bolts[SNB].

The webinar was hosted by Santhiya S - IV year KPR Institute of Engineering and Technology extended a warm welcome to the gathering and emphasized on the importance of Internet of Things for current situation. The inaugural address was followed by introduction of Chief Guest Dr. Vikram Neerugatti, CTO & Managing Partner Smart Nuts & Bolts[SNB].

The session was very much informative. The discussed areas were of great benefit for the participants as the topic was very much relevant with the current scenario and working domain. Participants were enlightened with the most widely used advance technologies in this domain. The webinar ended with Questionnaire session followed by vote of thanks. Feedback for the session was also collected and E-certificate was distributed to all the active participants.

# Session screen shot:

The top screenshot shows a Google Meet window with a presentation slide titled "SMART NUTS AND BOLTS [SNB] CORPORATE PROFILE". The slide features a futuristic image of a hand holding a glowing blue brain and a hand holding a glowing white cube with circuit patterns. The AI logo is visible in the bottom right corner of the slide.

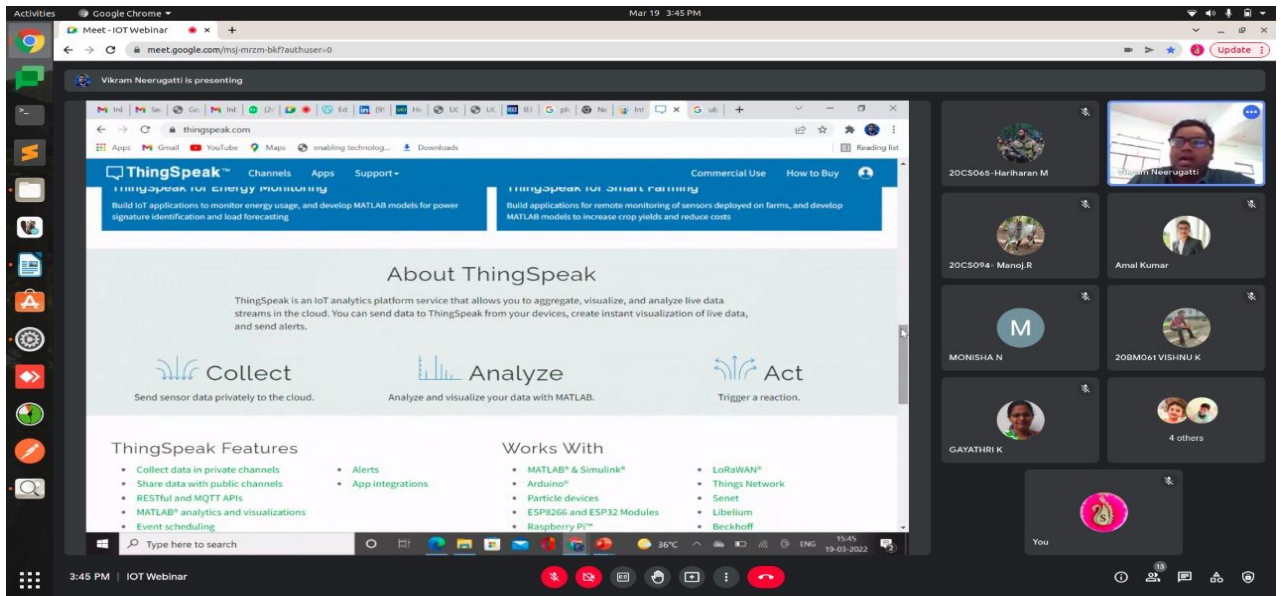

The bottom screenshot shows the same Google Meet window displaying a "Gartner Hype Cycle" graph. The graph plots various technologies against time and adoption rates. The technologies are categorized into five stages: Innovation Trigger, Peak of Inflated Expectations, Trough of Disillusionment, Slope of Enlightenment, and Plateau of Productivity. The technologies include Virtual Assistants, IoT Platform, Smart Robots, Edge Computing, Augmented Data Discovery, Smart Innerspace, Conversational User Interfaces, Brain-Computer Interface, Volumetric Displays, Quantum Computing, Digital Twin, Serverless PaaS, SG, Human Augmentation, Neuroorphic Hardware, Deep Reinforcement Learning, Artificial General Intelligence, AD Printing, Smart Dust, Connected Home, Deep Learning, Machine Learning, Autonomous Vehicles, Nanofabric Electronics, Cognitive Computing, Blockchain, Commercial UAVs (Drones), Cognitive Expert Advisors, Enterprise Taxonomy and Ontology Management, Software-Defined Security, and Virtual Reality. The graph is dated "As of July 2017".

Below the graph, there is a legend for "Years to mainstream adoption":

- less than 2 years
- 2 to 5 years
- 5 to 10 years
- ▲ more than 10 years
- obsolete
- before plateau

The bottom screenshot also shows the meeting interface with participants' avatars and the presenter's name, Vikram Neerugatti.

## Webinar - “Business Model Canvas (BMC)”

The poster is for a webinar titled "BUSINESS MODEL CANVAS". It is organized by the Department of Computer Science and Engineering in association with the Centre for Innovation Incubation and Entrepreneurship Development. The speaker is Mr. Prakash Balasubramanian, Director & Founder of Axel IT Solutions, Australia. The webinar is scheduled for Friday, 18.03.2022, from 10:00 to 11:00 AM. The meeting link is <https://meet.google.com/rpx-mtfp-jzy>. The coordinator is Dr T Sivakumar, Associate Professor / CSE, and the convenor is Dr Sumathi A C, HoD/ CSE. The poster also includes logos for KPR Institute of Engineering and Technology, Institution's Innovation Council, and CSE, and social media icons for Facebook, Instagram, Twitter, YouTube, and Google+.

Ms.A.Pradhusha from 2<sup>nd</sup> Year CSE delivered the welcome address and further she introduced the speakers Mr.Prakash Balasubramanian to the audience.

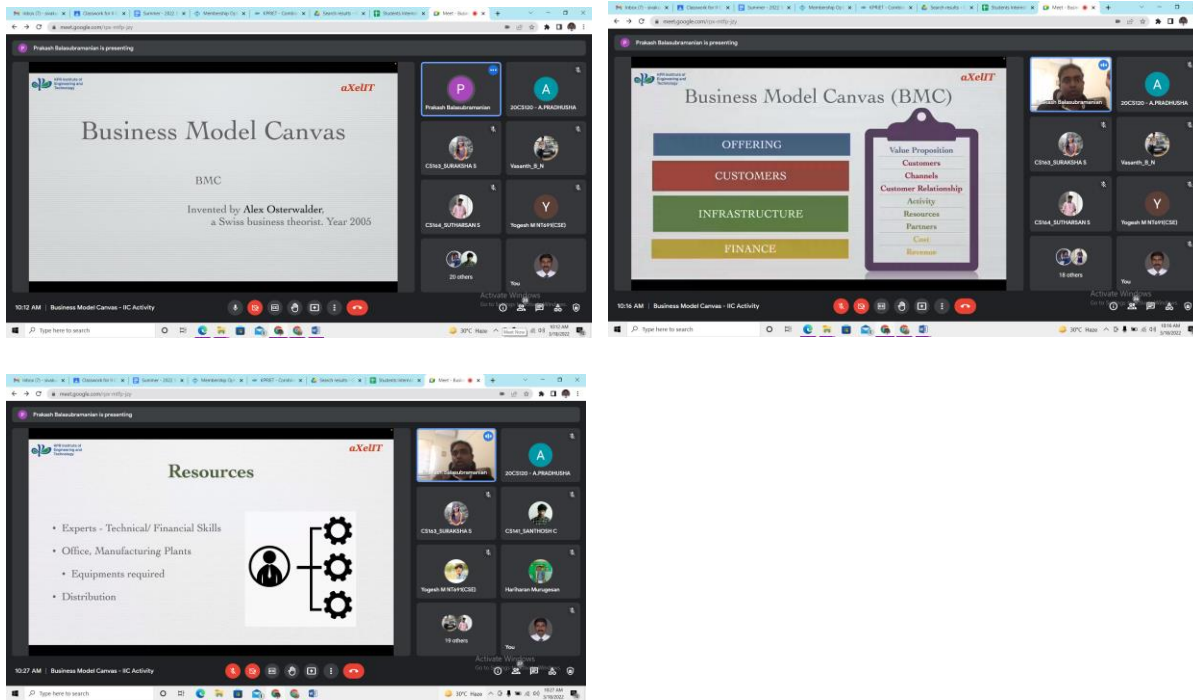

Further, Mr.Prakash Balasubramanian initiated the session from his academic background and experience at IBM and the reason behind to pursue higher studies. He shared the academic learning at Monash University, Melbourne and further the opportunities and situations made him to start a company at Australia.

Mr.Prakash Balasubramanian addressed the following points during his session BMC:

- Notion of Business Model Canvas
- Value Proposition
- Customers and Customer relationship
- Channels
- Activities
- Resources
- Partners
- Cost and revenue

Finally, Dr.T.Sivakumar, Associate Professor/CSE concluded the session with Vote of Thanks.
