Event Summary

The Electronics and Communication Engineering department students' association, SPARTRANZ, organizes a group discussion event for the students on February 24, 2024, in D-108. Group discussions hold an esteemed place in the educational and professional spheres due to the wealth of benefits they offer. They are much more than a simple exchange of ideas; they serve as a platform to showcase one's communication skills, leadership abilities, and team spirit.The primary objective of this event is to improve the leadership qualities and communication skills of the students. The total number of participants was divided into six teams. Each team consists of six members. The topics are assigned to each team, and each member of the team shared their views on the topics that were assigned to them. During the session, the following six topics are assigned:Impact of 'Internet of Things (IoT)' on our livesIs technology headed in the right direction?Ethical considerations in AI technologyThe importance of emotional intelligence in businessLeadership vs. management: which is more important?Is cryptocurrency the future of finance?
