

IETE Students Forum events - TECHCELLENCE -2019

The Department of ECE organized an IETE Tech fest -TECHCELLENCE 2019 on 14.09.2019 (saturday). This event contained technical events such as paperless presentation, component description, technical quiz, video presentation and non technical events such as just a min, marketing, photography, art and craft. The events were considered helpful for the participants as it was related to self learning.

Students from all departments had taken place in the various events. Students were allowed to take part in 2 events. Participation of the students was very effective. A total of more than 150 students had participated. The Jury's for the events had taken equal part in the success of these events. Two student coordinators were assigned for organizing each event.
