Mr. Prakash Subramaniam.
Team Manager (Systems Engineering).
PACTRON India (P) limited, Coimbatore.

Faculty Coordinators
Mr. Saravanan K, AP/ECE
Mr. K. Siddharthraju, AP/ECE

Date
31.08.2019

Venue
Thanam hall

Time
10:30 AM to 12:00 PM
Industry Expert Guest Lecture on

Recent trends in PCB technology and its job opportunities

The Guest lecture was organized on 31.08.2019 (Saturday) for 40 students from II year Electronics and Communication Engineering department.

The guest lecture was conducted by ECE Department, KPRIEnT, Coimbatore. The guest lecture was organized by faculty coordinators Mr.K.Saravanan and Mr.K.Siddharthraju. The session was ignited by Mr. Prakash Subramaniam - Team Manager (Systems Engineering), PACTRON India (P) limited, Coimbatore with his focused and experienced speech on “Recent trends in PCB technology and its job opportunities”.

The expert addressed the demand for the skillful technical young fresher’s in PCB design and hardware technology throughout his discussion. He highlighted the importance of updating oneself in the basics of electronic circuits and PCB design technology to fill the industry academic gap. Also, he introduced latest software tools required to design various engineering sections in PCB assembling.

Participants were interactive throughout the session and could understand the latest techniques in PCB manufacturing and soft skills required for PCB design industry. We are sure that this Guest lecture will benefit all aspiring participants who are interested in getting placed in core industries.
