**01:20pm to 02:50pm**

The VLSI Signal Processing (SIG-VSP) of department of ECE organized MATLAB training on 03.08.2019(Saturday).

The participants are III year ECE Students. The session started with an introduction to MATLAB. Then the basic commands in MATLAB were given and executed with examples.

Students were interactive and they have written simple programs using MATLAB and executed them successfully. At the end of the session, they enquired about the projects related to signal processing.
