

Guest lecture on **INDUSTRIAL AUTOMATION**

The Guest lecture on “**Industrial Automation**” was organized on 20.07.2019(Saturday) for III year students of Electronics and Communication Engineering department.

The program started at 02.30 p.m. and Dr. C. Karthikeyini, Senior Professor, Department of ECE, welcomed the gathering and introduced Chief Guest by briefing his achievements and experience.

The session was handled by **Mr.V.Vignesh, Junior Embedded Software Engineer, CRI Pumps, Pvt. Ltd., Coimbatore** from 02.30 p.m. to 03:30 p.m. in ECE classroom. The expert discussed the basics of embedded and IoT. He expressed various ideas to develop a project into a product as per industry needs. An overview of project development opportunities available in small scale industries, government schemes, service oriented and customized automation was shared by him. The usage and need for datasheet was introduced to students for project development.

Participants were interactive throughout the session and could understand the importance of embedded and IoT in industry automation. We are sure that this guest lecture will benefit all participants who are interested in embedded project development.

Ms. R. Aswatha, AP/ECE

Ms. S.Gunanandhini, AP/ECE
